## NEW ZEALAND PRODUCT RANGE

# Elka Bags

## Made from Virgin Plastics

### *The City Never Sleeps . . .*

As each day passes 'The City' generates waste. Always has, always will . . .

Waste is gathered in bags, be it liners, rubbish bags or heavy-duty garbage bags.

All waste ends up in a bin or in a bag - household waste, office, hospitality, food, medical, transportation, institution, factory and poop waste - the bag awaits its final journey from street side, dockside or city alley . . . to the recycler.

### *Inescapable . . . and the process repeats.*

City Garbage Bags Ltd (the new kid on the block) have supply partnered with ELKA IMPORTS, Australia's largest, long established disposable bag company, partnered to bring and develop a focused, practical, commonsense based garbage bag - sales, service and supply network to New Zealand.

### *Focus . . . read single-minded!*

Garbage bags, plastic garbage bags in this time and age, have a duty to tick as many boxes as are practical and positive.

✓ Strength ✓ Range ✓ Footprint ✓ Price ✓ Service ✓ Responsibility ✓ Information

The market and the customer are our judges.

'In New Zealand, City Garbage Bags Ltd., partner with Vacuum Brands Ltd.'

WIPES

# WIPES

ELKA multi-purpose wipes are ideal for home or commercial use. They are a cost effective solution that offer heavy duty strength and absorbency. ELKA wipes easily pick up dirt and food particles and allow for the cloth to be hygienically rinsed for use over and over again. ELKA wipes are packaged in an easy to use tear-off roll and can be used wet or dry.
